One — in Calif. is persistent — important
only words: News — more than once

Date — Walnut
(maybe streets)
looks like
outskirts of town (doesn't look like Brawley did not as nice houses)
palm trees

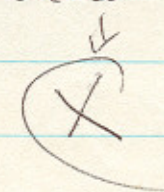

feel he is going to go on

the one that was in "holding" near Mohawk
has gone on toward Yuma, is at / water coming together
not very nice
will go on

at least some of families and Yuri
(he has wife and 7 children — plus Olga's)
are in U.S.

if Mohawk here

they are this way
it is green

trees, decent sheltered place
do not think is farm
baranca + yje staff in bloom

MOHAWK CANAL

all know bad weather coming — forecast says
front moving toward central Calif. 60% chance rain
tonight and tomorrow — right now is clear, cold windy
they are so aware, almost think they'll get rain first
but no reason in forecast yet
