2:30 in from horses - this headache is terrible - heat water for coffee - (anyone who likes or wants to do this is a phony - my opinion) just told Lou when they get near or nearer (like Pasadena) it doesn't make head hurt

- fixing Robin fresh bath water I think "Oh God do I have to do this for everybody?"

- fixing his juice - he had apple-grape, now he gets apricot - pineapple with iron B12 drops

thinking "the whee-yous aren't doing anything yet"

the voice "they don't have to be here till April 18 - you might see first one 14th"
