Gas, Sons have  
arrived at water going  
this way  $\longleftrightarrow$   
been thinking only of them  
— the word "Mohawk" persists  
I think appears more than  
once — where they came  
through had high mountains  
both sides  but far away  
still visible now

You were right that Copte Sun,  
was Dadfather's word —  
it — other is way off left of here

maybe dreamed cause been thinking  
all day Segerta is a destination  
(maybe urta)
