

Sat. Oct. 9 ¹⁸⁸² — noon

been terribly concerned about
our Baltimore Oriole
— Simi. Bee Canyon fire
news interrupts N.D. game
every few moments —

he was here 21 days — ate yesterday
not here today — it is last quarter
moon day I all this year want
have come and gone at this time
— very light before dawn —
I just keep hearing over and over
"he's headed toward Fillmore"
— much earlier thought there
was an "Elderberry" shortly before
crossed Santa Paula Creek — now
believe he is at a St. reminds of
that Elaine Boosler (on Wren often)
maybe "it's" Boosley — someone
has red flower feeder (took him 10 days here)
to find out what was —
just ate worms
