

(all day yesterday very sad "die lost Olga" — before went to sleep "most beautiful please show me where she is!")

Thurs. Aug 19, '82

was feeding Robin — go look at clock — 9:50

I know Olga and the children are at Oak Park. — I see them clearly her son is with them — he has not gone ahead with male leaders other mothers and children are near the now ~~fully mature~~ male with — ✓ at start who came back for them last year is there (believe is her '98 1st son)

Olga started her nest April 14 — (have pic) she came for worms May 6

She left with boy and children on July 27 (Tues) 1st 1/4 moon when Mario and other older B's went all the oldest males and most of wives and children left Sunday Aug 1 about 9:30 (Full moon 4th)

(keep pics of) it came back — 2 at 6:30 — 1 at 6:40 — 1 at 6:50 took balance of first families next morning between 7:30 — 8:00

it has taken Olga 24 days to Oak Park — these are oldest children she ever left with

they will go slow thru Alameda now — get food someone or ones are a little ahead where there are Palm - Marigold and Poppy Streets

(think are higher)
