11:35 — just finishing bran worms — look at  
clock — I suddenly KNOW that  
Olga's first sons are in United States  
— the radio is playing Bon Free  
then her song next (to put on tape)  
"God Speed our loves" — I cry —  
— I believe there are seven — all but  
one will go back — there was rain  
in their part of Arizona yesterday  
now radio has "Dreams of Home".  
Terry Schaefer begins "No good news" — big high  
is building

About 11:10

was trying to do several things at once while working on worms — started draft of letter to Bill Harrison to organize in mind

— right away get off with Mario as I said am amazed at extent of knowledge of Mexican geography stored in my head I wasn't aware of accumulating ————— he and others

are on way from Arizpe to San Ignacio —  
Imuris area
