DESIGN OF RESIDENTIAL, COMMERCIAL & INDUSTRIAL STRUCTURES • ENGINEERING CONSULTING SERVICE

Fri. Feb. 18, '83

Feel terrible - seem to  
be picking up just  
isolated bits and pieces

— more of Olga's have  
caught up near Sonoma

— there are palm trees

— think is above - west - north  
of town — an irrigation  
canal — not grand like near  
Yuma - smaller — there is a  
bridge and it goes up to a  
dam - maybe in U.S. — this is where  
are crossing
