Fri. Jan 6, '84

for the past 3 weeks the presence? spirit?
 whatever you call it that was Oga
 seems omnipotent - overshadowing
 all others - this is certainly something
 I did not expect or invite. She
 seems to be closely associated with
 the one with Dat start of bar - I
 believe he is her oldest living son -
 David Jr. is first, but he's close and
 he has (appears 2 y old) son flying reconnaissance
 - My Bequest has yearling son who goes back
 to his mother and children and Dale's family
