

THURSDAY, FEBRUARY 6, 1986

Thurs. Feb. 6, '86

Our first H. oride (looks like
"Promise kept") in US Tues 4
11:00 AM

Something is the matter at
Sonoyta?

Another barranca
or whatever you
want to call it
that intersects R
or just about
does close
to border

think 7 (4H-3B) have
crossed today — picking up
on this strong between 11:30-12:30

— all still looks much drier
than last year
